

PRESS RELEASE

DATE: 12 July 2022

FOR IMMEDIATE RELEASE

TOPIC: ROCKBlue's 2022 Performance Achievement Workshop Series (PAWS) event #2 and Online Lecture Series (OLS) event #13

[ROCKBlue](#) is hosting its second Performance Achievement Workshop Series event (PAWS #2) of the year from July 12-13 as well as its next free Online Lecture Series (OLS #13) webinar on the topic of Expanding Access to Sanitation Services for Informal Settlements, on July 21st. Providing leadership in water, sanitation, and hygiene (WASH), this non-profit informs and empowers utility service providers from 6 countries, who serve over 22 million people.

[ROCKBlue](#) is helping to create a world where everyone has access to clean water and basic sanitation by assisting urban utilities in developing countries. This assistance ultimately supports income, education, health for vibrant communities, and helps create a more sustainable environment.

The first PAWS workshop of 2022 was held from March 31-April 1, in Victoria Falls, Zimbabwe, where participating water agencies gathered, including WASCO in Lesotho, LWSC in Zambia, LWB in Malawi, GWCL in Ghana, AIAS in Mozambique and Ruwa, Mutare, Masvingo and Kwekwe in Zimbabwe.

On July 21st, the OLS webinar titled Expanding Access to Sanitation Services for Informal Settlements will discuss possible solutions to this profound challenge. Providing knowledge from experts, [ROCKBlue's](#) Online Lecture Series (OLS) gives WASH professionals access to hands-on experiences at no cost.

"We look forward to engaging water service providers in sharing cross-learning experiences with the webinars, while gaining water performance solutions during our

second PAWS and Expanding Access to Sanitation Services for Informal Settlements webinars,” says ROCKBlue Founder and President Peter Macy.

If you would like more information on the PAWS webinar and ROCKBlue’s Online Lecture Series (OLS), visit ROCKBlue.org.

In response to the need for water and sanitation services in developing countries, ROCKBlue, an NGO and nonprofit, strengthens the capabilities of sanitation and water utilities, and looks to keep up with the growing urban demand of those services. ROCKBlue, based in the USA and South Africa, believes empowered utilities create healthy cities and improves lives.
